PROFESSIONAL SUMMARY

Detail-oriented IT Support Engineer and Network Technician (B.E. Electronics & Communication Engineering in 2026) with hands-on expertise in Hardware & Networking, Windows Server administration, VMware Workstation virtualization, Active Directory Domain Services (AD DS), Microsoft Azure (AZ-900) and AWS Cloud infrastructure. Experienced in managing Active Directory, configuring LAN environments, deploying and administering virtual machines, resolving helpdesk tickets, and delivering remote technical support during internship. Proven ability to maintain 95% fleet uptime and reduce network downtime for business operations. Pursuing AWS Cloud Practitioner certification (Expected 2026) to expand expertise in hybrid IT and cloud environments. Available as immediate joiner.

TECHNICAL SKILLS

Hardware & Networking: PC Assembly, Hardware Diagnostics & Troubleshooting, LAN/WAN, TCP/IP, OSI Model, IP Addressing, Subnetting, Switch & Router Configuration, Wi-Fi Setup, Printer/Scanner Setup, Driver Configuration, Component Compatibility

Windows Server & System Administration: Windows Server 2022 & 25, Windows 10/11, Active Directory Domain Services (AD DS), Group Policy Objects (GPO), Organizational Units (OU), DHCP, DNS, VPN, Outlook Configuration, Ticketing Systems, SLA Management

AWS Cloud: EC2, S3, IAM, VPC, Web Hosting, EBS, Router 53 & AWS fundamental

Microsoft Azure Fundamentals (AZ-900): Azure Virtual Machines, Azure Active Directory (Entra ID), Azure Blob Storage, Azure Virtual Network, Azure App Service, Resource Groups & Azure Portal fundamentals

Virtualization: VMware Workstation, VM Deployment & Management, Oracle VirtualBox, Domain Controller Setup

Operating Systems: Windows 10/11, Windows Server 2022 & 25, Linux (Ubuntu/CentOS) — Installation & Administration

Remote Support & Tools: Bomgar, LogMeIn, Any Desk

Productivity Tools: Microsoft Office 365, Git & Github

WORK EXPERIENCE

Computer Hardware & Networking Intern — DAZZ IT Wing Pvt, Ltd.

2025 – 2026

Salem, Tamil Nadu

- Diagnosed and repaired hardware faults on 50+ corporate workstations, achieving and maintaining 95% fleet availability and reducing equipment downtime by an estimated 30%.
- Executed clean OS installations and configured Windows 10/11 on 30+ systems, including driver setup and application provisioning, cutting average setup time to under 2 hours per machine.
- Assisted in LAN setup and resolved 20+ wired and wireless connectivity issues per month, significantly reducing network downtime for business operations.
- Managed 100+ user accounts, permissions, and Organizational Units (OUs) within Active Directory Domain Services (AD DS) on Windows Server, ensuring consistent access control across the domain.
- Delivered remote technical support to 15+ off-site employees per week using Any Desk and LogMeIn, ensuring business continuity and meeting internal SLA targets.
- Documented recurring issues and resolutions in a structured knowledge base, reducing repeat troubleshooting time.

PROJECTS

Virtual Network Lab (VMware Workstation, Windows Server 2022 & 25, AD DS)

- Designed and deployed a virtualized enterprise environment using VMware Workstation with 5 VMs, including a Windows Server 2022 & 25 Domain Controller.
- Configured DNS and DHCP roles and implemented Group Policy Objects (GPO) for Active Directory Domain Services (AD DS), simulating a real enterprise IT setup for hands-on administration practice.
- Tested and validated Group Policy enforcement across 4 client VMs, demonstrating proficiency in enterprise system administration.

AWS Cloud Infrastructure Project (Fresher/Practice)

- Launched and configured EC2 instances on AWS Free Tier, including security group rules, key-pair access, and Elastic IP setup for a hands-on web hosting environment.
- Configured S3 buckets for static file storage and IAM users/roles with least-privilege policies to manage secure access across the environment.
- Set up a custom VPC with public/private subnets and monitored resource health using CloudWatch, building foundational skills in cloud networking and observability.

Microsoft Azure Cloud Infrastructure Project (Fresher/Practice, AZ-900)

- Provisioned and configured Azure Virtual Machines (Windows & Linux) via the Azure Portal, including Network Security Groups (NSGs), public IP addressing, and RDP/SSH access for a hands-on cloud hosting environment.
- Configured Azure Blob Storage for file/object storage and set up Azure Active Directory (Entra ID) users, groups, and Role-Based Access Control (RBAC) to manage secure resource access.
- Deployed a Virtual Network (VNet) with subnets and organized resources using Resource Groups, applying AZ-900 fundamentals of cloud governance, cost management, and the shared responsibility model.

Hardware Assembly Project

- Assembled and benchmarked 10 high-performance PC builds for academic laboratory use, applying knowledge of component compatibility, thermal management, OS Initialization and BIOS configuration.
- Reduced average assembly time by 25% through standardized build procedures, improving lab readiness for academic use.

CERTIFICATIONS & ACHIEVEMENTS

- Computer Hardware & Networking Certification — DAZZ IT Wing Pvt, Ltd.
- Linux Administration — Basic Level Certification
- AWS Cloud Practitioner — Currently Pursuing (Expected: 2026)
- Microsoft Azure Fundamentals (AZ-900) — Currently Pursuing (Expected: 2026)
- National Level Technical Symposium — Award for Poster Presentation on Emerging Technologies
- District-Level Bodybuilding Competition — Award Recipient

EDUCATION

B.E. – Electronics and Communication Engineering CGPA 8.38 AVS Engineering College, Salem, Tamil Nadu	2022 – 2026
Higher Secondary Certificate (HSC) Bharathi Vidyalaya Higher Secondary School, Salem, Tamil Nadu	2020 - 2022
Secondary School Leaving Certificate (SSLC) Government High School, Salem, Tamil Nadu	2019 - 2020
